Hello Phil – did you receive your invitation in the mail??

The Induced Seismicity session is coming along, BUT we are holding a spot for you. See attached...

Please let us know. THANKS!

Hello Phil!

We would like to invite you to come and present the findings of your research related to induced seismicity by injection at our Annual Forum to be held in St. Louis MO, September 23-25. (the actual IS session will be on the afternoon of Monday, September 23<sup>rd</sup>. (see preliminary agenda attached)

You may recall we approached you all regarding an event our organization held last January on this special topic in Florida. We would like to follow up with a session that includes work from others like you as state regulatory agencies work to improve regulatory parameters to reduce the risk of IS. We developed a (I must admit basic) white paper as a result of our January 2013 session. (see [http://www.gwpc.org/sites/default/files/events/white%20paper%20-%20final\\_0.pdf](http://www.gwpc.org/sites/default/files/events/white%20paper%20-%20final_0.pdf))

We hope your participation at the GWPC Annual Forum beneficial to you professionally. Of course, you would be our guest and we will waive the registration fee for you to attend the entire event.

Please let me know if you are interested and if there would be a good time that I could give you a call to discuss.

I know you are a busy man doing important work, so I appreciate the time you have taken to read this invitation.
